

COVID-19 CORONAVIRUS

July 29, 2021

Since the beginning, we at Sethness Roquette have put the health and safety of our employees above all else. That has enabled us to continue to serve our customers, who play an essential role in feeding people all around the world.

We have not for a second let down our guard against this pandemic. And we want to assure you that we won't stop now.

Regardless of the situation in the regions where we operate, Sethness Roquette is universally continuing to take all necessary preventive measures to protect our people, our most important resource, and to ensure the continuity of our business. That hasn't changed in the past year, and it won't. This is not the time to relax our efforts; indeed, it's more important than ever to be as vigilant as possible. We remain steadfast in our commitment to continue following all the precautions and procedures that will keep our people safe. And we continue to be especially grateful to our colleagues, all over the world, for their bravery, dedication, and sustained effort to keep our business running strong.

Please stay safe and continue to keep up the fight, so we can indeed start to see the end of this pandemic in all parts of the world in the near future.
