ABSENCE OF CHEMICALS IN SETHNESS CARAMEL COLORS

Sethness Products Company (SPC) only manufactures Caramel Colors in accordance with 21 CFR 73.85 regulation and complies with FCC (Food Chemical Codex, current edition Monograph for Caramel). No other chemicals, including pesticides and preservatives, are used in the manufacture of or come in contact with Sethness Caramel Colors. SPC receives guarantees from our suppliers regarding absence of pesticides. Sethness Caramel Colors are 100% Caramel Color as listed in our Ingredient & Label Statement. Caramel Colors are GRAS (Generally Recognized As Safe) when used following GMP's (Good Manufacturing Practices). There is no complete analysis of a Caramel Color that would include all potential chemicals and without testing data it would be improper to certify their absence or state a maximum concentration. However, Sethness Products Company can certify that only materials listed in 21CFR 73.85 and FCC Caramel Monograph are used to manufacture Sethness Caramel Colors.
