DIETARY FIBER

The United States Food and Drug Administration 21 CFR 101.9 (c)(6)(i) (as of 4/1/16) defines dietary fiber as follows:

“Dietary fiber is defined as non-digestible soluble and insoluble carbohydrates (with 3 or more monomeric units), and lignin that are intrinsic and intact in plants; isolated or synthetic non-digestible carbohydrates (with 3 or more monomeric units) determined by FDA to have physiological effects that are beneficial to human health.”

Sethness Caramel Colors do not contain FDA approved or recognized Dietary Fiber. Any positive results from AOAC 985.29 are color body polymers formed during manufacture.
